## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1,2,5 & 12 are rejected under 35 U.S.C. 102(a) as being anticipated by JP Patent Application 2002-26560. The foreign JP patent application discloses a turbo-machinery system for cooling a high power density device and comprising a heat exchanger, a porous medium with interconnected flow paths and further a method for cooling a high density device consisting of the steps of drawing air through a porous medium.

### ***Allowable Subject Matter***

**Claims 15-20 are allowed over the prior art of record.**

Claims 3,4,6-11,13 &14 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
